The Law offices of Dan Newlin Injury Attorneys, Orlando, FL — *Legal Assistant*

May 2017 - February 2022

- Assisted attorneys in legal research, document preparation, and case management.
- Scheduled appointments, court dates, and maintained an organized calendar for legal professionals.
- Drafted and proofread legal documents, including pleadings, contracts, and correspondence.

PROJECTS

LockItDown — Role: Full Stack Developer

This application was created for multiple users to store and protect their credentials. The rise of cybercrime has heightened security requirements, resulting in users having multiple passwords scattered across different apps. While this enhances safety, it also creates a hassle when trying to locate their credentials.
Tools: HTML, CSS, Javascript, Bcrypt, Express, EJS

GMNails — Role: Full Stack Developer

A website designed for a small business in Orlando, Florida. Projects display the owner's work and provide easy ways to make contact.
Tools: HTML, CSS, Javascript, React, EmailJs, GoogleMapAPI

Portfolio — Role: Full Stack Developer

In this project, I utilized a combination of front-end technologies including HTML, CSS, JavaScript, and the React framework. The portfolio application is designed to highlight my skills, projects, and professional background, providing a comprehensive overview of my programming expertise.
Tools: HTML, CSS, Javascript, React
